Natural Solutions To Pest Control This Summer
Good Dog Naturally Carries Safe And Effective Options

Good Dog Naturally features Lumino Diatomaceous Earth for Pets. Diatomaceous Earth (DE) is the fossilized remains of microscopic shells created by single celled aquatic plants, or diatoms. Lumino DE is sourced from one of four deposits considered Chemical Codex Food Grade by FDA standards. Lumino DE is amorphous silica (silica in its naturally occurring state), a trace mineral all mammals need in order to survive. Its action on fleas however, is devastatingly effective. DE is a physical or mechanical option, not a chemical one, so there is no danger of a reaction with other products or concern of overdose. DE acts as a super desiccant, dehydrating the flea within seventy-two hours on contact. Stop in Good Dog Naturally to find out more about this all natural option for flea prevention.

No Taxation Without Representation?
Property Tax Exemption Does Not Create A Fair Business Climate

While discussing the tug boats and tax revenue bonds, Representative Burns stressed to me the correlation with property tax exemption and federal money. The bonds are issued by the EDF (debtor) to the business (creditor) and the bond is paid off over an extended period of time (10 - 20 years) based on the specific industry of the bondholder. The EDF is a non profit corporation with governmental authority (the management arm of the District) over public money, including federal and state funds as well as a percentage of the hotel/motel tax.

A valid concern with the bond issues is the question of existing conflicts of interest. Last week, CW received a document describing a lawyer representing the EDF and EDD through an outside firm, who also holds membership on the boards of both said organizations. Our intention is not to scapegoat individuals, but to address the problems that exist in organizations that should be driving our economic development in a way that benefits the entire business community.

The issue of property taxes was raised at the last CBA meeting following the presentation from the parish Intergovernmental Communications Director. The basic question was, why do they keep going up? That is a question that is repeated over and over, from many business owners in downtown. A fair business environment should not include property tax exemptions that are only available to those with the most assets, or to favored business contracts.

Councilman Jacob Groby recently made public a letter that was sent to the EDF with regard to the Folger's factory in Lacombe. Mr. Groby received numerous questions and letters from his constituents with regard to the plant, and he details his own concerns in the letter. The Folgers plant is also a bond issue. While I was unable to find that particular property on the St. Tammany Parish Assessor's office website, I did find that Diversified Foods, a multi million dollar business, paid \$0 in property tax for 2013. The Southern Hotel, also a bond holder, paid approximately \$1200 in property tax in 2013.

The highest grossing businesses are getting tax breaks and incentives to operate in St. Tammany with public dollars while the working class and small business owners are getting taxed more and more, and that is referred to as "economic development." Wikipedia defines economic development as the sustained, concerted actions of policy makers and communities that promote the standard of living and economic health of a specific area, separate of economic growth. By this definition, the standard of living that is promoted in this specific area is that of the top of the pyramid, while the rest are left to struggle.

A better definition of economic development would include actions that spur economic growth for the entire community, not just a small cross-section. Businesses should contribute to the tax base in relation to what they gross. If everyone paid their share, we could experience a true economic boom, and enjoy tax cuts overall. - TAG

Farmer's Market Recipes
Fresh recipes inspired by the Covington Farmer's Market
Eggplant & Chanterelle Saute

Ingredients:
6 - 9 red potatoes (Slice of Heaven Farm)
1 large eggplant (Father & Son Farm)
1/2 pound of chanterelles (Grow.Farm)
green onions, chopped (Slice of Heaven)
Fresh goat cheese
1 clove of garlic, minced
rosemary, thyme & a touch of sage
extra virgin olive oil, or other oil of choice
sea salt & white pepper

Directions:
Slice the potatoes in thin medallions and quarter. In a large saucepan, saute 1/2 the garlic in a tablespoon of oil. Add the herbs & spices. Let simmer for a second more, until everything softens. Add the potatoes and mix, cover and let simmer on medium heat, tossing occasionally. Cook until potatoes soften. Slice the eggplant in medallions as well, but leave round. In another large saucepan or skillet heat a tablespoon of oil on medium heat. Once the oil begins to steam, add the eggplant medallions. Add the chopped chanterelles and the rest of the minced garlic around the eggplant. Flip and mix occasionally, cook until the eggplant has browned slightly on both sides. Plate the potatoes and top with the eggplant slices. Cover with the sauteed chanterelles and garlic. Crumble with fresh goat cheese and dress with a sprig of rosemary. Enjoy!
